SARA ORTEGA ZÚÑIGA

< Web Developer />

The fascinating world of programming has captivated me in such a way that it has completely made me reconsider my professional career.
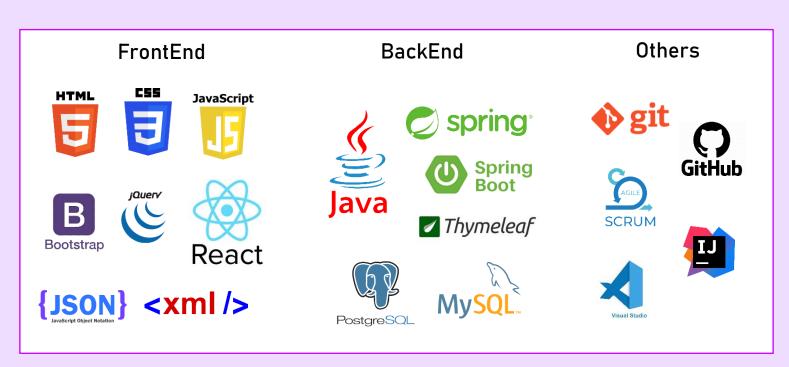

Making a change of this magnitude in my life is not going to be easy, but I feel it is the right thing to do. I have finally found my calling, something I had given up on. Now, I know what I want and here I am, determined to achieve my goal.

These past three years of intensive academy and constant work on personal projects have provided me with the experience and knowledge I needed in current programming languages and technologies.

🙂 I am eager to join a dynamic and collaborative team where I can contribute and, at the same time, grow in this wonderful world of technology.
